Summary

Operations, procurement, and supply chain professional with 10+ years of experience leading manufacturing operations, production planning, inventory management, and purchasing activities. Proven ability to analyze data, optimize processes, manage vendor relationships, and maintain efficient workflows in fast-paced production environments.

Recognized for adaptability, leadership, and a commitment to continuous learning, with expertise spanning operations management, digital technologies, and cross-functional collaboration.

Experience

AUGUST 2023 - JUNE 2026

Quaff On Brewing Company, Nashville, IN - Brewer

- Directed wort production and brewhouse operations, supervising an assistant brewer in daily execution while personally operating the brewing system as needed to ensure consistent quality, efficiency, and adherence to production schedules.
- Collected, analyzed, and maintained annual grain usage, production metrics, and detailed monthly inventory records to support purchasing decisions, inventory forecasting, budgeting, and long-term procurement planning.
- Coordinated ingredient procurement, inventory utilization, and weekly planning for brewing operations with management, ensuring material availability while minimizing waste and excess stock for cost efficiency.
- Assisted with raw material inventory ordering, management, cost analysis, receiving, stock rotation, and production forecasting to support normal daily operations.
- Operated and maintained brewing systems while ensuring strict compliance with safety and sanitation standards.
- Conducted critical control monitoring, quality testing, and accurate documentation of brewing operations in Ekos Management Software
- Identified and resolved equipment issues with the maintenance department, reducing downtime and maintaining workflow continuity.
- Created and brewed new recipes for the Small Batch line, supporting product innovation and portfolio expansion.
- Served as a brand ambassador/liaison at public and industry events, strengthening customer engagement.

FEBRUARY 2023 - AUGUST 2023

Blue Marble Productions, Indianapolis, IN - Blending Specialist

- Prepared and organized the mixing station, ensuring all instruments were sanitized and ingredients were available for production.

- Measured and weighed ingredients in both English and metric units, adding them to the mixing vessel per batch specifications.
- Performed CIP procedures on mix tanks, finished product tanks, and canning lines to minimize downtime and maintain sanitation standards.
- Conducted ATP swab tests and accurately recorded batch and CIP data electronically.
- Ensured all blends met volume and quality specifications in accordance with laboratory requirements.
- Operated transfer pumps, valves, and filters for batch transfers, and safely received bulk alcohol shipments from tanker trucks.

MARCH 2022 - FEBRUARY 2023

Hotel Tango Distillery, Indianapolis, IN – *Production Associate*

- Maintained bottling line efficiency and performed quality control checks to ensure products met retail standards.
- Operated forklifts to safely transport totes, barrels, and finished goods between production areas and the warehouse.
- Supported daily operations by maintaining a clean, organized, and safe work environment.

JUNE 2013 - DECEMBER 2021

Indiana City Brewing Company, Indianapolis, IN – *Head Brewer/Operations Manager*

- Managed procurement of raw materials, packaging supplies, and production consumables, ensuring continuous inventory availability to support production schedules and business objectives.
- Oversaw inventory control, stock forecasting, receiving, and material reconciliation using Ekos Brewery Management software to maintain accurate inventory records and minimize shortages.
- Developed and maintained relationships with suppliers, coordinated purchasing activities, negotiated order schedules, and ensured timely delivery of critical production materials.
- Directed production planning and scheduling for brewing, packaging, and cellar operations, balancing inventory levels with production demand.
- Maintained detailed production, inventory, and packaging records to support operational planning, quality assurance, and regulatory compliance.
- Oversaw all aspects of beer production from recipe development through packaging and distribution, ensuring product consistency and operational efficiency.
- Monitored key quality metrics including gravity, pH, and fermentation performance to maintain product specifications and quality standards.
- Identified opportunities for process improvement, workflow optimization, and waste reduction, contributing to increased operational efficiency.
- Performed preventive maintenance and troubleshooting on brewhouse and cellar equipment to minimize downtime and support uninterrupted production.

- Led product development initiatives, creating and launching new brands that contributed to portfolio growth and market expansion.
- Supervised daily production activities, resolved operational challenges, and coordinated cross-functional priorities to maintain schedule adherence and production goals.

Education

AUGUST 1996 - DECEMBER 2000

Ball State University; Muncie, Indiana – *Bachelor of Arts*

AUGUST 1998 - DECEMBER 1998

Sapporo University; Sapporo, Hokkaido, Japan – *Exchange Student (Certificate)*

Skills

Procurement&Purchasing • Inventory Control & Tracking • Production Planning & Scheduling • Vendor Management • Supply Chain Coordination • Materials Forecasting • Operations Management • Process Improvement • Data & Record Management • Quality Assurance & Quality Control • Regulatory Compliance • Equipment Maintenance • ERP and Brewery Management Software (Ekos) • Microsoft Office, Excel, and Google Workspace • Lean Six Sigma

Certifications

- Lean Six Sigma White Belt, Completed – June 2026
- Lean Six Sigma Yellow Belt, Completed – June 2026
- Indiana University Kelley School of Business – AI Applications Certificate
